

Since 1985

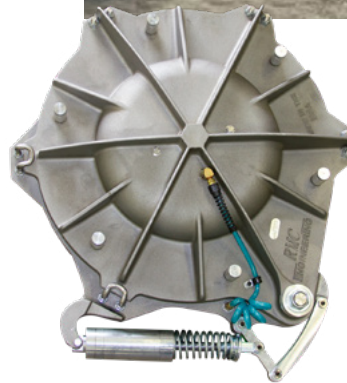

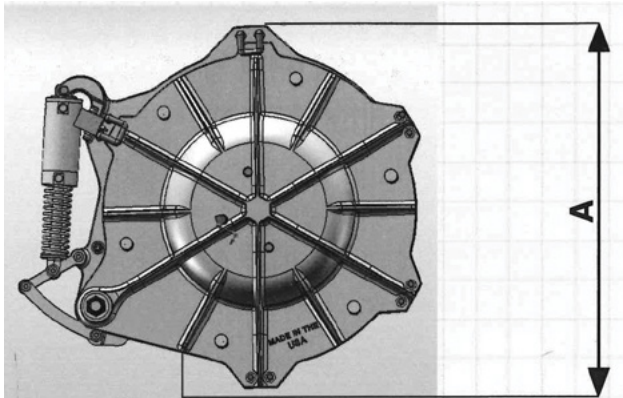

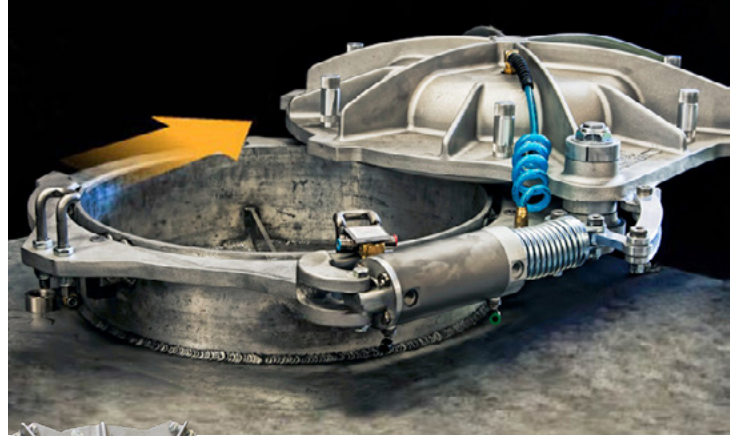

Automated Safety System

Work faster and more efficiently from the ground. This compact lid is easy to install, pins on to existing lid ring and works with multiple lid configurations. And it helps keep your employees safe and on the ground!

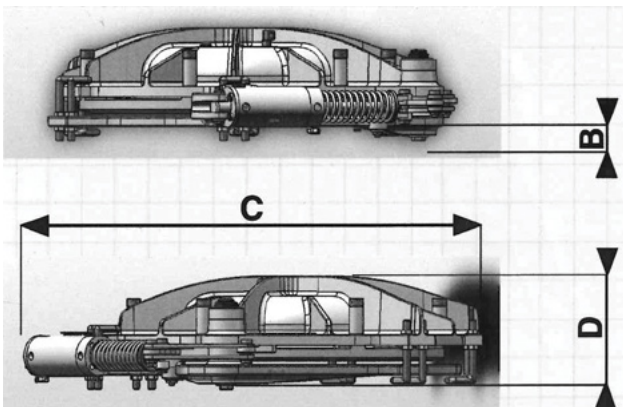

Design Features

- Easy installation - no welding
- Less maintenance than a manual lid
- All pneumatic - no electrical connection
- Polyurethane gasket with a 5-year warranty

Keep your employees safe and on the ground!
